'11
¹ The 100 point qualifications through October 2008 include bonus PV systems earned under version 2.0 for communities located in SW Connecticut. The 100 point qualifications since November 2008 have been earned under version 3.0 and do not include bonus PV systems.																							
² Achievement awards through October 2008 were earned under version 2.0 and awarded for increments of 2.5% of households while awards earned since November 2008 were earned under version 3.0 and awarded for increments of 5.0% of households. In addition, Cornwall earned a 1 kW PV system achievement award in anticipation of its qualification as an EPA Green Power Community																							
³ Communities that have committed to the 20% by 2010 Campaign are eligible to receive a Community Innovation Grant. The grants are used to support local clean energy awareness and education projects. As of November 1, 2008, Grants have been reduced from \$5,000 to \$4,000 (towns that have already received a grant are eligible for a \$2,000 grant). Through December 2009, one community, Bethany, has received a second grant while all other grant recipients have received a single grant.																							
⁴ Cells shaded green with green font indicate that municipality has earned an additional clean energy system from the previous time period.
