New Haven, CT 06530
Phone: 888-596-2922
sales@befreegreenenergy.com
www.befreegreenenergy.com

As referenced on our website, <http://www.ctcleanenergy.com/solarthermal>, funds for the current ARRA solar thermal program are entirely committed. We are placing applications in the queue for our planned solar thermal program, which will be supported by the Clean Energy Finance and Investment Authority (CEFIA).

When the next program is launched (we expect in approximately one month or so), customers and contractors will be notified. Applications in house will be reviewed in the order in which they were received.

Although we are hoping to simplify the application process in the new program, the form from the current program may be used until the new program is launched.

Please be aware that no new applications will be approved until the new program is launched. As this new program will be funded by the ratepayers of United Illuminating and Connecticut Light & Power, we will not be able to fund any project in the state's [CMEEC](#) electric municipalities.

Please check back to our website periodically for updates.

Customer/Project Owner: As with any significant purchase, you should shop around when considering a solar thermal system, check references, seek as much information as possible and obtain more than one quote. The residential and commercial rebate applications can be downloaded at www.ctcleanenergy.com/solarthermal. Please review the applicable application in its entirety.

The CEFIA program requires the customer/project owner to get CEFIA's written approval for the rebate before construction of the system begins. Customer/project owner will be notified by e-mail within thirty (30) business days if their application has been approved, denied, or if more information is required. The approval notice will include the rebate amount and a Rebate Reservation Number from CEFIA. (Contractor will receive a copy of the notice.) Only projects that will be installed by an approved contractor are eligible for a rebate.

For your protection, any customer purchase agreement/contract entered into with a contractor should have a clearly defined project schedule.

Solar Thermal Contractor: We are still accepting contractor qualifications applications. To become a CEFIA-approved contractor, please refer to the eligibility criteria in "Request for Qualifications and Instructions" at www.ctcleanenergy.com/solarthermal. Contractor will be notified by e-mail within thirty (30) business days if their application has been approved, denied, or if more information is required.

Illegible or incomplete forms will be discarded.
