¹ These figures assume that the service address municipality matches the municipality determined from data supplied by the marketers.

² These figures exclude 6 commercial signups (2 at the 50% level and 4 at the 100% level) for which the service address of the enrolled company is unknown.

³ These figures exclude 119 residential signups (23 at the 50% level and 96 at the 100% level) for which the service address is unknown.

⁴ These figures include signups located in the three ineligible municipalities of Bozrah, Norwich and Wallingford. Because it is possible that these customers are served by CL&P or UI, we assume that these are exceptions and are eligible.

⁵ As of November 1, 2008, each sign-up to the CTCleanEnergyOptions Program is equal to one point, regardless whether it is a 50% or 100% sign-up.

⁶ As of November 1, 2008, total sign-up points include additional points earned according to Version 3.0 of the CT Clean Energy Communities Program.
