

## PRE-APPLICATION INCENTIVE ESTIMATE FORM

### Onsite Renewable Distributed Generation Program

This form requests information about onsite projects considering seeking funding from CCEF under the Onsite Renewable Distributed Generation Program, and which desire. Please provide all of the information requested and return to CCEF at the address below.

**Director – Project Management**  
**200 Corporate Place, 3<sup>rd</sup> Floor**  
**Rocky Hill, CT 06067**  
**Email: info@ctcleanenergy.com**

<b>Applicant Contact Information</b>		
Date:	_____	
Name/title:	_____	
Company	_____	
<b>Address</b>		
City/town:	State: CT	Zip: _____
Phone:	Fax: _____	
Email:	Website: _____	

<b>Host Site Information</b>		
Proposed host site: _____		
Specific location of installation	City/town: _____	State/ZIP: CT/ _____
Square footage of facility:	_____	
Nature of the host site activity (e.g. healthcare, supermarket, manufacturing, educational, affordable housing, municipality, etc) and relevant specifics (e.g. services provided, product manufactured, hours of operation, etc)		
_____		
Electric distribution company:	<input type="checkbox"/> Connecticut Light & Power	<input type="checkbox"/> United Illuminating

<b>Host Site Owner:</b>	
Host Site Occupant: <input type="checkbox"/> Site Owner <input type="checkbox"/> Tenant	If tenant, name: _____
If tenant, years of lease remaining:	_____

\*

Affordable Housing applicants must supply the following supporting documentation: copy of relevant pages of bylaws that indicate the mission of the company is to construct, promote, or manage affordable housing, and a letter from a local, state or federal authority listing the development's address and confirming the development as affordable housing

Name on Electric Account:	
---------------------------	--

<b>Renewable Energy Generating Equipment Owner:</b>	Will the output of the equipment be sold under a PPA? Yes <input type="checkbox"/> No <input type="checkbox"/>
<input type="checkbox"/> Site Owner <input type="checkbox"/> Other:	If 'other', name:

<b>Clean Energy Technology*</b> (check all that apply)		
<input type="checkbox"/> Wind	<input type="checkbox"/> Fuel cells	<input type="checkbox"/> Solar PV
<input type="checkbox"/> Landfill gas	<input type="checkbox"/> Biomass gasification	<input type="checkbox"/> Hydro
<input type="checkbox"/> Other (describe):		
<small>*(cannot involve combustion of coal, petroleum or petroleum products, municipal solid waste or nuclear fission)</small>		

**Additional Required Information (provide separately from this form, preferably in \*.xls, \*.csv or \*.doc files)**

Project technical details:	Make, model number and quantity of all major discrete system components that determine the capacity and efficiency of the system (e.g., solar panels, inverters, fuel cells, wind turbine generators, ORC heat-recovery system, etc.)
Project cost:	Total installed cost (price to ultimate owner) of the renewable energy equipment included in this project, including sales tax if applicable
Installation & operating details:	Installation and operating characteristics needed to determine energy output (e.g., azimuth, tilt and shading analysis of solar panels; projections (hourly, if possible) of thermal energy used in fuel cell systems; documentation of the renewable energy resource estimates for wind, hydro, biomass or landfill gas projects
Customer electrical load data:	Customer load data – most recent twelve months of electric bills or billing information for the meter that feeds the load that the project will be connected to, including utility rate, demand (kW) data and consumption (kWh data) in as much detail as possible. For all projects over 100 kW, customer's hourly load data must be provided if available.
Customer thermal usage data:	Customer thermal usage data – for all co-generation projects or heat recovery projects, please provide cost and consumption data for the fuel that will be used or displaced by the renewable energy project, again, in as much detail as possible. If possible, provide copies of latest 12 months of fuel bills.
Power Purchase Agreement Terms:	Provide detailed pricing and any buyout or prepayment terms for a third-party ownership project. Copy of actual Power Purchase Agreement is preferred.
