### Installers Eligible to Participate in CCEF's Solar PV Rebate Program

#### **IMPORTANT NOTICE**

"Neither CCEF, Connecticut Innovations, Inc., nor the State of Connecticut: (1) endorses the workmanship of any Eligible Installer; nor (2) guarantees, warranties, or in any way represents or assumes liability for any work proposed or carried out by an Eligible Installer. Additionally, CCEF is not responsible for assuring that the design, engineering and construction of the project or installation of any PV system is proper or complies with any particular laws, regulations, codes, licensing, certification and permit requirements, or industry standards. CCEF does not make any representations of any kind regarding the results to be achieved by the PV system or the adequacy or safety of such measures."

As with any significant purchase, homeowners are encouraged to shop around when considering a solar PV system. They should check references, do their own due diligence, seek as much information as possible and obtain quotes from several installation companies. Complaints should be filed with the State of Connecticut Department of Consumer Protection, the Connecticut Better Business Bureau and a copy sent to the Connecticut Clean Energy Fund.

**The below list of CCEF Eligible Installers is periodically rotated to allow each company to be listed on the front page.**
